

## **RV UNIVERSITY – PLACEMENT POLICY**

### **SECTION 1 — PREAMBLE, PURPOSE & APPLICABILITY**

#### **1.1 Preamble**

The Career & Alumni Relations (CAR) of RV University is responsible for facilitating structured, fair and transparent placement and internship opportunities for students across all Schools of the University. This policy establishes a unified institutional framework that governs student eligibility, training, documentation, disciplinary procedures and stakeholder responsibilities associated with placements. It aims to ensure that every student receives equitable access to career-readiness initiatives while maintaining the highest standards of professional conduct expected by industry, recruiters and the University.

#### **1.2 Purpose of the Policy**

The objectives of this policy are to:

- a. Define the governance and operational structure of CAR for conducting placement and internship activities across all Schools of RV University.
- b. Standardise processes relating to student eligibility, pre-placement training, documentation, recruiter engagement and offer management.
- c. Establish clear expectations for student conduct during all placement-related activities and define the mechanisms for addressing violations.
- d. Ensure compliance with institutional regulations, accreditation requirements and recruiter protocols.
- e. Facilitate seamless coordination between CAR, Schools, faculty mentors, students and recruiters to promote successful career outcomes.

#### **1.3 Scope of the Policy**

This policy applies to:

- a. All Schools, programmes and academic units of RV University participating in placement and internship processes.
- b. All students who seek to register for placement-related training, internships, interviews and final recruitment opportunities facilitated by CAR.
- c. All placement officers, School-level placement representatives, student placement coordinators and CAR staff involved in conducting placement activities.
- d. All recruiters, employers and external training partners engaging with RV University for internships, projects, pre-placement talks or recruitment.

#### **1.4 Applicability and Effective Date**

This Placement Policy (Version 1.0 / 2026) shall be effective from the graduating Batch of 2022 onwards. All students of the Batch of 2022 and later cohorts who intend to participate in placement activities must comply with the provisions of this policy.

The University reserves the right to review, update or amend this policy periodically based on academic requirements, recruiter expectations, regulatory guidelines or institutional decisions.

## **SECTION 2 — GOVERNANCE OF PLACEMENT ACTIVITIES**

### **2.1 Career & Alumni Relations (CAR)**

The Career & Alumni Relations (CAR) is the central body responsible for planning, coordinating and executing all placement, internship and career-readiness activities across all Schools of RV University. CAR functions as the primary institutional interface for recruiters and ensures uniformity, transparency and operational consistency in all placement-related processes.

The responsibilities of CAR include, but are not limited to:

- a. Coordinating placement and internship activities across all Schools of the University.
- b. Designing and delivering pre-placement training in collaboration with Schools and external partners.
- c. Facilitating recruiter engagement, scheduling recruitment processes, and managing campus drives end-to-end.
- d. Ensuring strict compliance with this Placement Policy across all Schools.
- e. Acting as the institutional point of contact for student and recruiter queries related to placement processes, and for forwarding any grievances or violations to the appropriate University authorities.
- f. Maintaining updated communication with School leadership to ensure seamless coordination for all placement-related activities.

### **2.2 Documentation and Accreditation Support**

CAR, in coordination with School Placement Officers, shall maintain authenticated records of all placement and internship outcomes for internal use and accreditation.

This includes:

- a. Offer Letters
- b. Appointment Letters
- c. Offer Acceptance Letters / Joining Confirmations
- d. Withdrawal / Unappointment Letters

Disciplinary referral records (as applicable). These documents shall be submitted to the University administration for accreditation audits, ranking frameworks and compliance with statutory reporting requirements.

### **2.3 Student Placement Coordinators (SPCs)**

Student Placement Coordinators are nominated by Schools to assist CAR, the School Placement Officer & School Placement Chairperson in facilitating placement-related activities. They do not hold any formal administrative authority or responsibility.

Their role is limited to:

- a. Assisting and witnessing the conduct of placement drives, tests, interviews and related logistics.
- b. Supporting basic coordination between School-level faculty, CAR and students.
- c. Helping with document movement, communication and student coordination when required.
- d. Offering voluntary support to ensure smooth organisation of recruitment processes.

**g. No Pending Disciplinary Cases**

Students facing an active case with the Student Disciplinary Committee (STDC) shall be ineligible to participate in any placement or internship process until a final decision is issued and formal clearance is granted.

**3.2 Pre-Placement Training Framework**

Pre-placement training at RV University shall be structured into the following three mandatory components. The design, sequencing and delivery of training shall be undertaken in consultation with the respective Schools.

**a. Domain / Technical Training**

This includes discipline-specific and role-oriented preparation relevant to the student's academic programme and industry expectations. The nature, depth and tools used for such training shall be School-specific.

**b. Soft Skills Training**

This includes communication skills, group discussions, interview readiness, presentation skills, professional etiquette and workplace conduct.

**c. Emotional, Behaviour & Networking Intelligence Training**

This includes emotional regulation, professional behaviour, adaptability in organisational environments, and networking intelligence required for long-term career growth.

Across all the above training components, minimum attendance of 80% is mandatory. Any restriction arising out of non-compliance shall be determined at the discretion of the Dean of the concerned School, in consultation with the School Chairperson and CAR.

**3.3 Training Attendance Requirement**

Attendance for both Domain/Technical Training and Soft Skills Training is mandatory.

- A minimum of 80% attendance is required for a student to qualify for placement participation.
- No equivalence, online substitutes or alternate pathways will be considered. Attendance shall be tracked through officially notified mechanisms (ERP / signed attendance sheets / authorised online logs).
- Students with approved medical, disability-related, or University-approved academic/sporting commitments may seek specific relaxation from the Dean and Chairperson.

**3.4 Internship and Experiential Learning Record Submission**

Students must ensure that records of their summer immersion, internship and capstone project (as applicable) are submitted to their respective Schools within prescribed timelines. These records may be verified by School Placement Chairperson for eligibility confirmation and placement readiness.

**3.5 Student Conduct During Training and Placement Preparation**

Students must adhere to professional conduct norms during all training sessions, interactions with trainers, pre-placement talks and recruiter interactions.

All official responsibilities, certifications, submissions and decisions rest exclusively with the School Placement Chairperson and CAR.

## SECTION 3 — STUDENT ELIGIBILITY & TRAINING FRAMEWORK

### 3.1 Eligibility Criteria for Placement Participation

Students are permitted to participate in placement and internship opportunities facilitated by CAR only if they fulfil all the following mandatory conditions:

**a. No Backlogs**

All RVU students are eligible to participate in pre-placement training. At the time of registering for placement drives, the student must have no pending backlogs, unless a specific recruiter allows otherwise.

**b. Minimum 80% Attendance in Pre-Placement Training**

Attendance of 80% or above in the official pre-placement training programme is compulsory.

**c. Submission of Placement Registration & Declaration Form**

Students must formally register for placements by submitting the prescribed Placement Registration and Declaration Form, clearly indicating their interest in participating in placement activities and agreeing to all rules and responsibilities under this policy.

**d. Completion of Required Experiential Components**

To be considered placement-ready, students are expected, where applicable as per their programme structure, to have completed the following:

1. Summer Immersion / Industry Exposure – After Year 1
2. Mandatory Internship – After Year 2
3. Capstone Project / Major Academic Project – After Year 3

These experiences form the baseline preparation expected before a student seeks final placement opportunities.

**e. Exceptional Approval (Case-by-Case, Not Mentioned as a Right)**

In rare cases where a student has not completed one or more of the above experiential components, the School Chairperson and the Dean may jointly recommend the student's eligibility. Such exceptional approval shall be recorded in writing and copied to CAR, and placement eligibility shall become active only after CAR confirms the same in its records. This is not an alternative pathway and shall be permitted only based on meaningful, validated academic or industry experience at the discretion of the School leadership.

**f. Compliance with Company-Specific Eligibility Conditions**

Students must meet any eligibility criteria mandated by recruiters, including but not limited to:

- Minimum CGPA
- Absence of active backlogs
- Portfolio submission (where applicable)
- Technical test performance
- Branch/discipline requirements

No exceptions can be made for company-specified requirements.

Any misconduct or violation observed during training or placement preparation shall be formally forwarded to the Student Disciplinary Committee (STDC) for examination under the University's Student Code of Conduct.

## SECTION 4 — OFFER RULES AND PROGRESSION

### 4.1 Basic Offer Rule (1× Offer)

A student is considered to have secured one confirmed placement offer (1×) the moment their name appears in the final selection list released by a recruiter through CAR, regardless of acceptance or rejection. This 1× offer counts toward the student's placement progression eligibility.

### 4.2 Recruiter-Imposed Restrictions

If a student accepts an offer and the recruiter's official policy or offer letter restricts further participation in other placement processes, the student becomes ineligible for all subsequent CAR-facilitated drives.

After such acceptance, the student is not eligible for the Offer Progression Rule as detailed in Section 4.3 and may participate only in Dream Offer opportunities.

### 4.3 Offer Progression Rule

If no recruiter restriction applies to an existing offer:

**Activation Condition:**

The Offer Progression Rule (1.5× opportunity) is not automatically available upon receipt of a first offer. This rule shall become operational only after a minimum of 40% of eligible students of the concerned School are placed, or as and when the Dean of the School formally announces activation, whichever is earlier. Until such activation, participation in higher-value opportunities shall be governed by institutional discretion and fairness considerations. Subject to the activation conditions stated above, a student may attend up to four (4) additional placement drives after receiving their first offer, provided that:

1. The first offer's CTC is below ₹8 lakhs, and
2. The new opportunity offers a CTC of at least 1.5× (150%) of the existing offer.

After these four permitted drives, the student's eligibility shifts entirely to Dream Offer companies only.

### 4.4 Dual Selection Scenario

If a student appears for another company while awaiting results from a previous company and is selected by both, then:

- The student is considered to have completed their placement requirement from the CAR perspective (Not eligible under 4.3 Offer Progression Rule).
- The student must choose one of the offers.
- After choosing, the student remains eligible only for Dream Offer companies going forward.

This ensures fairness, avoids blocking opportunities for peers, and supports transparent recruiter engagement.

#### 4.5 Classification of Offers

##### a. Final Placement Offer

A confirmed full-time role applicable after graduation. Counts as 1× offer upon selection.

##### b. Internship with Pre-Placement Offer (PPO) / Performance-Based Conversion (PBC)

If a company selects a student for:

- An Internship leading to PPO, or
- An Internship with PBC,

then the selection immediately counts as 1× offer, the moment the student's name appears in the company's final selection list, even if the student chooses to reject it later.

If the student rejects such an internship offer after being selected, eligibility for another offer will be considered only at the 1.5× CTC level, subject to the activation conditions of the Offer Progression Rule.

##### c. Independent Internships & Sponsored Research/Fellowships (Academic)

Independent internships or academic engagements such as:

- Sponsored research
- Fellowships
- Academic assistantships

Do not count toward the 1× or 1.5× progression system because they are academic in nature, not final employment offers.

If a recruiter withdraws an offer after confirming it, the student may submit a request to CAR for appropriate institutional consideration.

#### 4.6 Off-Campus Offers

Offers secured independently by a student (off-campus) do not count toward:

- The 1× offer rule, or
- The 1.5× progression rule.

However:

- Students must report such offers to their School Chairperson / School Placement Officer for ethical compliance and record-keeping.
- On professional and compassionate grounds, students are advised to voluntarily opt out of university placements if they have already secured a firm off-campus offer—but this is not mandatory, and the final decision rests solely with the student.

#### 4.7 Dream Offer Rule

A Dream Offer is defined as an offer whose CTC is significantly higher than the prevailing highest offers historically achieved by the concerned School, and not merely relative to a single recruitment period.

The Dream Offer benchmark shall be dynamic and progressive, and may be determined based on:

- a) The highest CTC achieved by the School in recent or past academic years; and/or
- b) Any revised benchmark formally notified by the Dean of the School, in consultation with CAR.

The intent of the Dream Offer classification is to ensure that Dream Offers remain exceptional and aspirational, and that students are not provided unlimited progression opportunities once placed. The Dream Offer benchmark shall be School-specific and uniformly applicable across all eligible programmes within that School.

**Illustration:**

If a School of Computer Science and Engineering (SoCSE) has recorded a highest CTC of ₹30 lakhs per annum in the recent past, that value shall be treated as the Dream Offer benchmark for that School. If, at a later stage, a company offers a CTC of ₹35 lakhs per annum, the Dream Offer benchmark for the School shall thereafter stand revised to ₹35 lakhs per annum or higher, as applicable for subsequent opportunities.

**SECTION 5 — PLACEMENT PROCESS**

**5.1 Student Registration for Placements**

- a. Students intending to participate in placement activities must complete the Placement Registration & Declaration Form within the deadline announced by CAR.
- b. Registration is permitted only after verifying eligibility as per Section 3.
- c. Students must provide correct academic, personal, and contact details. Any falsification or misrepresentation will result in disciplinary action under the Student Disciplinary Committee (STDC), depending on severity.
- d. Registration once submitted shall be treated as a formal commitment to participate in placement processes and adhere to all terms of this Policy.

**5.2 Pre-Placement Talks (PPTs) and Company Orientation**

- a. Companies may conduct pre-placement talks to explain their organisation, job roles, selection procedures, salary packages, service conditions, and employment terms.
- b. Attendance for PPTs may be mandatory for specific drives where the recruiter requires it.
- c. Students must maintain discipline, decorum, and professionalism during PPTs as they are considered part of the placement process.
- d. Students are expected to clarify doubts related to job profiles, work locations, and other terms during PPTs rather than during later stages of selection.

**5.3 Application to Companies**

- a. Students may apply to companies only through the official channels communicated by CAR.
- b. No direct communication or individual application to recruiters is permitted unless expressly allowed by CAR.
- c. Students must verify that they meet all company-specific eligibility criteria before applying.
- d. Once a student applies to a company, withdrawal from the process without a valid and approved reason will be treated as a violation and may be reported to the Student Disciplinary Committee (STDC).
- e. Any CV, portfolio or documentation submitted to recruiters must be truthful and free from exaggeration or false claims.

**5.4 Selection Process Coordination**

- a. CAR will coordinate all selection procedures including:
  - Written Tests / Online Assessments

- Technical and HR Interviews
  - Group Discussions
  - Case Studies / Portfolio Reviews
  - Coding Rounds or Practical Evaluations
- b. Students must report on time for each stage. Late arrival, absence or unapproved withdrawal will be treated as a violation.
  - c. Student Placement Coordinators may assist in the logistics and smooth conduct of selection processes, under the supervision of the School Placement Officer.
  - d. Students must maintain professionalism and avoid any behaviour that may adversely affect the University's relationship with the recruiter.
  - e. If a student is disqualified at any stage due to misconduct, misrepresentation or unprofessional behaviour, the incident shall be formally forwarded to the Student Disciplinary Committee (STDC) for examination.

#### **5.5 Offer Release and Acceptance**

- a. Recruiters may announce results either on-campus, virtually, or through official communication to CAR.
- b. Students who receive an offer must formally accept or decline it within the deadline specified by the recruiter or CAR.
- c. Once a student accepts an offer, the student is expected to honour the commitment and follow through with joining formalities. Any withdrawal after acceptance will be treated as a violation under Section 6.
- d. Students selected by a company may be governed by the One-Offer and Offer Progression rules defined in Section 4.
- e. Any errors, clarifications or disputes regarding offer letters must be brought to CAR immediately for resolution with the recruiter.

#### **5.6 Submission of Placement Documentation**

- a. Students must submit all required documentation, including Offer Letters, Appointment Letters, Acceptance Letters and Joining Confirmations, as communicated by CAR.
- b. All documents must be submitted on or before the prescribed deadlines.
- c. Tampering with documents, altering offer letters or providing fake documentation will result in immediate escalation to STDC.

#### **5.7 Joining Formalities and Post-Selection Conduct**

- a. Students selected for final placement must comply with onboarding requirements as specified by the employer.
- b. Students must maintain professional conduct during background verification, onboarding sessions, pre-employment training or orientation.
- c. If a selected student fails to join the organisation without valid reason, the matter may be referred to the Student Disciplinary Committee (STDC) for appropriate action.
- d. Schools may request submission of internship/placement completion certificates as part of academic requirements.

### **5.8 Communication and Updates**

- a. All official placement communication shall be routed only through CAR-approved channels (email, ERP, dashboards or official groups).
- b. Students are responsible for regularly checking official communication. Failure to do so will not be considered a valid excuse for missing deadlines or opportunities.
- c. Students must not contact recruiters directly unless explicitly permitted. Any attempt to influence recruiters may be treated as a violation.

### **5.9 Participation Limits and Placement Eligibility Continuity**

#### **a. Limit on consecutive missed eligible drives**

Once a student is found eligible and has registered for placements, the student is expected to participate consistently in the placement processes facilitated by CAR. If a student misses a maximum of three (3) eligible placement drives consecutively (in a row), without prior written approval from CAR/School Chairperson for a valid reason, the student shall be treated as inactive for placements and may be declared out of the placement process for the ongoing placement cycle.

#### **b. Maximum placement opportunities/attempts offered by RVU**

CAR facilitates placement support as an institutional opportunity, subject to student cooperation and consistent participation. A student shall be provided a maximum of five (5) placement opportunities/attempts facilitated by RVU CAR in a placement cycle. After completion of this maximum limit, the University's placement assistance for that student shall cease, and the student will not be permitted to apply for further placement drives through CAR for that cycle. At the School Dean's discretion, an additional two (2) opportunities may be provided once 40% of the total eligible students of the School are placed, in consultation with CAR.

#### **c. Activation of 1.5× opportunity**

- i. The 1.5× opportunity (Offer Progression Rule) shall become applicable only after a minimum of 40% of eligible students of the concerned School are placed, or as and when the Dean of the School formally announces eligibility, whichever is earlier.
- ii. Until such activation, students are expected to exercise due diligence and discretion before registering for placement drives and are strongly advised to apply only to those roles and organisations they are genuinely willing to join.
- iii. Once a student's name appears in a company's final selection list, it is professionally expected that the student will honour the offer and associated responsibilities, in line with institutional ethics and industry norms.
- iv. Any concerns arising after selection, or any non-adherence resulting in reputational, institutional, or peer-level impact, shall be formally forwarded to the Student Disciplinary Committee (STDC) for examination under the University's Student Code of Conduct.

**d. Dream Company Opportunity (Exemption):**

Notwithstanding Clause 5.9(b), a Dream Company Opportunity, if declared as such by the Dean of the School/School of Study in consultation with CAR, shall not be counted within the maximum placement opportunities/attempts limit, and eligible students may be permitted to participate irrespective of the number of opportunities already exhausted. The decision of the Dean, in consultation with CAR, to declare a company/opportunity as a Dream Company Opportunity shall be final for that placement cycle.

**e. Linkage to disciplinary framework:**

Non-participation, repeated absence, withdrawal, or refusal without approval shall be treated in accordance with the disciplinary referral mechanism outlined in Section 6.

**SECTION 6 — DISCIPLINARY REFERRAL MECHANISM**

All violations, misconduct, or non-compliance related to placement activities, whether minor or major in nature, shall be formally forwarded to the Student Disciplinary Committee (STDC) for examination under the University's Student Code of Conduct.

CAR shall not adjudicate, penalise, or independently resolve disciplinary matters. Upon referral of a case to STDC, the concerned student shall not be permitted to participate in any placement-related activity until a final written decision is issued by STDC.

All outcomes, penalties, reinstatement conditions, and appeal mechanisms shall strictly follow STDC proceedings and institutional regulations.

**SECTION 7 — POLICY APPLICABILITY, REVIEW AND REVISION**

**7.1 Applicability of the Policy**

This Placement Policy (Version 1.0 / 2026) is applicable to:

- All students from the Batch of 2022 onwards, across all Schools of RV University, who are eligible and seek to participate in placement or internship activities facilitated by CAR.
- All School Placement Officers, faculty mentors, student placement coordinators and CAR staff involved in placement processes.
- All recruiters, employers, companies and external partners engaging with RV University for internships, projects and final placements.

Students from earlier batches who have completed their programme requirements or are part of legacy processes shall follow the placement guidelines applicable during their period of study.

**7.2 Policy Compliance**

Students must comply with all provisions of this Policy as a prerequisite for participating in pre-placement training, internships, recruitment drives and post-offer processes. Non-compliance may result in restrictions, suspension or disciplinary action as specified in Section 6 of this Policy.

Schools and CAR shall jointly ensure that all placement activities are conducted strictly in accordance with this Policy.

### 7.3 Policy Review and Updation

- a. This Policy shall be reviewed periodically by CAR in consultation with the Registrar's Office, School leadership and relevant University committees.
- b. Revisions may be made based on:
  - Changes in industry expectations,
  - Regulatory guidelines,
  - Accreditation requirements,
  - Any other due to internal academic or administrative needs.
  - Any update or revision shall be formally notified by the University and shall supersede previous versions from the notified date forward.

### 7.4 Interpretation and Clarification

In the event of ambiguity or need for interpretation, the authority to clarify provisions of this Policy shall rest with the Director – CAR, in consultation with the Registrar's Office. Such clarifications shall be binding and uniformly applicable across all Schools of the University, subject to the overall authority of the Vice Chancellor.

### 7.5 University's Rights

The University reserves the right to:

- a. Modify placement rules, guidelines or eligibility criteria;
- b. Withhold placement privileges from students who violate institutional norms;
- c. Impose additional conditions based on academic performance, discipline or recruiter requirements;
- d. Discontinue or revise placement processes if required in the interest of institutional integrity.

Attached Annexures (with Explanations A–E):

| Annexure | Particulars                                                        |
|----------|--------------------------------------------------------------------|
| A        | Student Registration & Declaration Form                            |
| B        | Intimation of Withdrawal / Deferment                               |
| C        | Recommended Industry Certifications and Job Role Mapping by School |
